

**SERAM GROUP**<sup>®</sup>  
The system

Crane manufacturer since 1973

**EQUILIBRIUM CRANES  
ON CRAWLERS**

**BI-ENERGY SYSTEM**

[WWW.SERAMGROUP.COM](http://WWW.SERAMGROUP.COM)

# BI-ENERGY MOTORIZATION...

Self moving with diesel generator,

Stationary working with electrical supply

# EXCLUSIVE PATENTED BALANCED BOOM...

Low hydraulic pressure ~180 bars

Smoothness and fastness of the crane movements with top reliability and safety

Low energy consumption

Reduced operating costs

## TECHNICAL DATAS

- Max. outreach from 15 to 35 m
- Lifting capacity at end jib: Up to 10 t
- Electrical engine: from 37 to 350 kW
- Hourly production: from de 150 to 1200 t/h
- Specific flat plates to avoid damages on the ground

## SERAM DATA System

- Real time remote controle
- Preventive maintenance
- Anticipation of the needs of consumables
- Reduction of potential unscheduled dow time
